Maybe you can consider taking a working sample. The blessing will be as useful as your buff character in any style of play. PET pet You have 2 recommended choices for the job sample, Yoyo and Deviruchi. Just as the article of the game Newbie gave this time with the title of the Guide to build the champion in the love of Ragnarok M Eternal. There are advantages if you play with the skills for skills, we will have great damage and we can kill a monster with a skill shot. Quite simple you need a str attachment and speed of attack. Champion Á is one of the works of many jobs in this game you can take. But actually there are a triple attack type, but this build is not too popular with others. In addition, we can make a wide Skill Ashura Strike only using 30 skills' blessing of Dex piÁ'. Guide to build Champion in Ragnarok M Eternal Love - Currently more and more' playing Game Ragnarok M Eternal Love and already many who get the ideal job that lead to play this game of Love Eternal Ragnarok. The priority skills that we must pay attention to are a critical explosion - destruction and pre-emptive strike. Take Skills by Strike Ashura for Skills PvP and Ruwach that you can use to detect invisible enemies. We can use the critical explosion destruction skills to increase the st state when you use the skills of critical explosion. But we will build skills Here they will focus on the game PVE. We can use the by Strike Ashura for PvP. With You can increase your AGI and speed of movement with the ability to bless. There are two buff abilities that need to be considered, namely Iron Fist and Spirit Recovery. DEX will be useful to improve the accuracy of attacks, while LUK is used to increase the critical level paired with Critical STR: 75 AGI: 95 DEX: 26 LUK: 30 The state allocation is made via the statistics calculator here The allocation of Acolyte Skill priorities you need to take is a blessing that can increase STR, DEX and INT. Attack speed, we get a critical attack on the next attack. You can then increase Mace's Mastery ability which can increase your attack damage. But when it's level 50, you can switch with slash weapons and giant gloves. Critical Explosion and Steel Body are two abilities you can use to play MVP. For those of you who are still bigung ungu determine which job you want to take. This ability can increase the chances of spirituality, while the steel body to increase the defense. With this ability you can kill your opponent with a single shot. Also take the investigative skill that can be used to attack. The above skill is a guide skill you can follow if you want to play the game ragnarok M Eternal Love using a job as a champion. So, you can add some DEX and LUK. Meanwhile, the recovery of the Spirit can provide a point of health and a regeneration of any point. We can also use the offensive finger skills which are attack skills of the champion that can quickly kill the monsters and rely on the abilities of the calling spirit. spirit.
